...OF YOUR OLD FRANKING MACHINE, OF COURSE.

Let our mail room surgeons dissect your old franking machine, and take a scalpel to your existing contract. Our free **post mortem** could reveal that:

- you are paying too much in rental
- your franking machine is not 2004 compliant
- your running costs are too high
- your mailroom needs a new lease of life

Then we can take a look at your requirements and recommend the FP system to suit your needs. Our systems are all Royal Mail approved and are equipped for the de-regulation of the postal service with the introduction of new carriers. Our systems feature digital postal meters, and use chipcards to load new meter ads and postal rate changes.

From the compact Mymail to the high volume Jetmail, we have the system to fit your mail requirements. To find out more:

FREEPHONE 08000 192033,
or fill out the **FREEPOST** reply card opposite.

Beyond the mailroom we also supply the major copier, fax and scanner brands. Our experienced account managers are always happy to offer advice and make recommendations.

MYMAIL

Compact, fast and friendly. The perfect entry level system for the home/small office.

OPTIMAIL

The desktop machine for medium volumes. Capable of cost accounting for 9 different departments.

NEW
March 2004

ULTIMAIL

Mid ranged and packed with extras including an integrated scale and inkjet system.

JETMAIL

High volume mixed mail inkjet system. This vertical feed modular system will handle mail up to 20mm thick and even jiffy bags.

BEST BUY
"What to buy for
business" 2003
